Welcome to Meta-Together!!! We’re looking forward to three days of fruitful collaboration. As part of our commitment to inclusion, diversity, equity and access, we’re offering digital methods of collaboration. The Meta Together Slack will be our primary way to communicate during the conference. Make sure that you have joined all of the channels!

Academic sessions
- All sessions will be streamed live using Zoom. You can join virtually if you’re not attending the conference, or if you need some quiet time and want to watch the conference from your hotel room.
- The Zoom chat function is for **audio visual problems** only. This will be monitored by a conference administration person.
- To ask a presenter questions about their talk, please use the relevant Slack channel. There are channels set up for each session. Because each session has multiple talks, please ensure that you format your question as follows:

  QUESTION: @name Then state your question
  QUESTION: @NituSyed How does the ambient air temperature impact the sensitivity of the tin oxide sensor?

- If there is not enough time for the presenter to answer your question during their time slot, they will answer it afterward. We encourage continued Q&As across the three days!

Event notifications and questions
- The conference administration team will be sending out all notifications in the Slack #general channel. Please ensure that you have notifications for Slack turned on, on your mobile device so that you don’t miss any important updates.
- There is a #faqs channel in the Slack for you to ask questions about the conference. This is monitored by our conference administration team.

Social
- The #meta-social channel is your place to socialize with fellow in-person and hybrid attendees. It’s also the place to upload any photos you take!!!
- Our social media manager is unable to attend due to injury, so help her out by uploading photos to this channel (with an explanation if possible but not necessary) so that she can share in our Centre communications.

Slack for chairs, speakers, MCs and presenters
- There is a Slack channel that contains all of the guidelines to help you fulfill your role in the Centre conference.
